After watching the events unfold in Charlotte, NC the last couple of days, it's now obvious: These filthy apes are now completely out-of-control.

Keith Lamont Scott was a dead-beat dad with a fairly extensive criminal record (not surprising for blacks) including assault with a deadly weapon. Apparently, when undercover cops clearly ID themselves and ordered him to get on the ground, he ignored their continuous commands and had a gun in his hand that he had just pulled out from an ankle holster. He didn't have any damn book like his crazy daughter lied to everyone (this kind of lying BS means nothing to the media). He was also was shot by a BLACK cop working for a BLACK police chief.

And these animals had a violent fit, trashing the city for two days?

A reporter at the Charlotte rioting was interviewing this chubby little black chick in her 20's, obviously well on her way to becoming your typical ugly fat Sheboon with all the great food she regularly gets to eat in America. The spoiled brat was literally screaming at the reporter about how her and her family members being important (as in productive

members of society, lol) and how she could get shot in the head on the streets — but quickly made sure to append to her sentence “BY A COP” so we wouldn’t think she was talking about the usual daily black criminal behavior. Hilarious: Even Negroes themselves know the total BS head job they are running on America.

People, people: These black apes are utterly worthless!

All the blacks and the media are acting like Whites are to blame, of course. It’s always White racism to blame for how blacks behave, have you noticed? God, I should hope so. But it’s just an excuse to riot and rob. Did you notice the very first thing they did on the first night was loot a Walmart?

Or how about some black shooting another black in the back of the head in a probable gang or payback hit? Witnesses say they saw a black in dreadlocks do it and run away, but militant blacks are insisting he (Justin Carr) was hit by a rubber bullet fired by cops. Ridiculous. This kind of spur of the moment black killing thing happens in black marches all the time. It’s dangerous in black crowds!

Absolutely nothing will ever satisfy these blacks. Why? Because they are exactly like spoiled little children — except they are big, sadistic children, who love mayhem and destruction. They get excited like crazy causing trouble. Any kind of trouble. Decent civilization is something to destroy. People — White, black, Hispanic, Asians, doesn’t matter — are to torture and kill for fun and games.

*This White guy tells it like it is.*

This kind of thing goes on in every city in the US where these animals live. It matters nothing about having a “black” president and black Attorney Generals or mayors in the city where they live. Hell, you got blacks on TV everywhere and all the Jew Hollywood movies make them out as heroes and smarty pants every minute. It’s a effin’ GD joke.

But the joke is on us, White people, because these animals [kill us Whites in horrible ways all the time](#). Astoundingly horrible murders. They would kill your Whitey ass in a Jew York minute if they thought they might get away with it. The women, too.

Just spend a few minutes scrolling down this website: [NEW NATION NEWS](#) to see how this race acts on a daily basis. Research it all to see for yourself, if you don’t believe me. Hell, watch your local news.

These “crazy Niggas” are murderers, spree killers, serial killers, drug-dealers, thieves, rapists, rioters, looters, arsonists, baby child molesters, public perverts, rapist murderers of our White elderly — and everything else criminal under the sun.

They fill the prison system simply because in African countries they just execute them

practically right away.

They even torture and kill innocent little animals all the time. Lately, they have been videotaping each other [kicking stray little kitty cats](#) on the streets for S and G's, while laughingly posting the sickening vids online. They always kill dogs for fun. Why do you think dog and rooster fighting is so prevalent in African countries in this modern age? Because blacks are stinking GD sadists, that's why.

## I HATE THESE FILTHY APES!

Sorry. I just can't stand seeing or reading about innocent real animals hurt. Blacks on the streets I could care less about. I hope they shoot up more of themselves.

Every place these blacks live, is nothing but crime and degradation. Here, watch another quick video:

Get real about the black race! They totally and completely suck.

And I'm not saying all that because I'm a White supremacist or whatever the hell they want you to think, for crying out loud.

In July, black wacko David Owens ran into a random hospital room out of the blue and shot dead an elderly Jewish cancer patient and her White nurse for reasons completely unknown. This kind of thing happens all the time in today's now racially Jewed America with these wild animals running loose — nuts or not.
