This past Saturday morning they had on the movie “The Flying Leathernecks” on TCM. Near the end of the movie, John Wayne’s Marine Corp squadron is dispatched by air control to help stop the Jap Kamikaze attack on the US Navy fleet offshore.

I had a buddy whose dad was on one of those ships attacked by the crazy Kamikaze Nips. He was an officer on a “tin can” (destroyer) running radar picket duty outside the fleet. Since so many Jap pilots were newbies at that point in the war, much of the aerial assault mistakenly concentrated on them. His ship was hit by two Nip planes while he was up topside, right outside the bridge, blasting away at them with a Thompson submachine gun, probably outfitted with one of those big 100 round drum magazines. How cool is that?

His little ship went down in 2 minutes flat with the loss of much of the crew. He was one of the few survivors who managed to swim away. Thousands of American swabbies across the fleet died that day. I suppose that Thompson is sitting on the floor of the ocean off

Okinawa in a rusty heap right now.

Whites totally kick ass. That's one of the biggest reasons for all the brainwashing of our race with "PC" and diversity crap. It's also the real unspoken motive behind the censorship of Free Speech for us White people everywhere and disarming us. These dirty punks are totally scared of us acting in solidarity. They know if all us Whites get riled up (as we should), they don't stand a snowball's chance in hell!

*Hor*  
*rific scene for the White-haters: John Wayne home on leave in "The Flying Leathernecks" seeing his boy and his loving, respectful wife. Back then, having families and children was the greatest thing in the world. You see the utter BS they've unleashed upon our race these days, don't you? Immigration, feminism, faggotry and tranny BS? The stinking bastards are going to pay for all the crap they've done!*

Back in WWII, America was pissed about the Japs stabbing us in the back by attacking Pearl Harbor on December 7, 1941. Come to find out FDR purposefully irked the Nips to attack us, so he could backdoor America into war with Adolf Hitler — the International Jew's numero uno enemy of then and even now, obviously. We still have watch their Jew media

propaganda over evil Nazis every minute. every day.

But we probably would have gone to war with Japan sooner or later. The militaristic monkey men were still riding a big war high after defeating the Czar's fleet at Tsumima Straight way back in 1905 and taking over Manchuria and Korea. They aimed to create a Japanese Empire in the Pacific and power it with oil from Dutch Indonesia. Already Churchill was looking to scale back the British Empire from the area, but wanted the US to fill the void, since he couldn't stomach the idea of slanty-eyes threatening fellow Aussie blokes and going around acting like they owned the place.

Things would have been better if we just allied ourselves to Germany so we could put a stop to Stalin's commie efforts to undermine our country and the Jewish destruction of our race we see today (see graphic below). Many in Britain were already Jew-wise and wanted to be on friendly terms with Der Fuehrer. Same thing with the Frenchies — there was even a big contingent of French soldiers fighting for Pan Europa alongside the Germans. Yep, sure did. But don't expect a big action movie about their heroics from Jew Hollywood!

Instead, we allow the Chinks in China to steal our stuff and help them on the way to becoming the big honchos of the planet. This is all due to Jewish Globalism and the fact Jews are inherently big time commies. Many of Mao Zedong's top cadres were Jew commies. Plus, Zionist Israel is big buds with today's Chinese power structure and often sells them our American designed armaments. Didn't know that, did you?

These Jews are HUGE traitors and backstabbers. Basically, they think they can whatever they please for themselves, being God's supposedly "Chosen Ones" and all.

We should just ally ourselves to Putin and Russia. They are fellow Whites, you know. Tell them we'll look the other way while they take over the Ukraine, if they do the same about us cleansing the Muzzie and African hordes out of Europe and Scandinavia. Same thing with shipping the criminal Jiggaboos of America back to Africa where they belong.

Oh, man, the Jews would go totally ballistic! There is nothing they hate more than see us

Jew rats like David Brooks are on TV all the time promoting Globalism and Turd World immigration, right along with trash-talking about Trump. You can listen to his double-talk on ABC's "This Week with George Stephanopoulos."

Whites working together. No telling what the backstabbers would resort to, to break us up. WWII anybody?

Now about my headline "WHITE AMERICA." They don't want you to realize this, but virtually all casualties in America's wars have been us White European Gentiles, including those of Spanish descent. Yep, that's right. We're the ones who fought and died for this country. In WWII alone, 419,000 Americans gave the final sacrifice, but only a small percentage of that number were black or Jewish.

I know you libtards out there think I'm a hard core racist. Damn skippy considering that criminal blacks constantly rob, rape and murder us Whites and the filthy Jews are obviously at war with our race. The stinking creeps jerk America's chains all the time with liberal, commie BS and yet still manipulate us to support unequivocally that murderous, Jew-racist country in the Mideast, Israel.

## **If Germany had won**

- A war-torn Europe would have been spectacularly rebuilt, supervised by Hitler's architect: Albert Speer.
- Berlin, now renamed Germania would be the capital of Europe. All Europeans would have benefited from the German "Economic Miracle".
- No USSR and thus no Cold War or "Iron Curtain"
- No Red China and the subsequent killing of 40 to 60 million Chinese people.
- No Communism anywhere.
- The end of the political ideology known as Zionism
- A Palestine free from Israeli aggression and the relocation of the Jews to Madagascar.
- Greater stability in the Middle East without Israel.
- No fictitious "War on Terror".
- A ban on usury and privately-owned central banks.
- Abolishment of Freemasonry.
- An emphasis on traditional family values.
- No Cultural Marxism or Liberalism and their destructive ideologies:
  - Drugs
  - Abortion
  - Pornography
  - Homosexuality
  - Radical feminism
- No Multiculturalism and the present Jewish policy of forced third-world immigration to the West.

**And you still tell me that we won?**
