

Phillip Marlowe

When Diana married that royal guy, what's his name, my mother got up in the middle of the night to watch the televised BS. I think she taped it on one of those old VCRs, too. Diana was a good-looking young thang — it sure did stink the twat got hooked up with that pudgy Egyptian guy, Dodi something. I think it turned out she was a bit of a psycho.

At the risk of pissing off my British brethren, I was always amazed about Americans being interested in royal crap. Didn't we put a stop to all that when we had that revolution with crazy King George III? Must be some damn Loyalists still out there.

Now "OUR" media over here is going wacked about it because the bride, Meghan Markle, is supposedly "biracial." The lousy traitors love seeing the White race polluted.

But I think she's only like 25% black.* Her mother is a Jamaican mulatto half-breed and the divorced father is a chubby White guy trying to get out of the whole thing by hiding out in Mexico (even making up having major heart operations). I think the mother is even less than half Negroid, too, since one of her parents on the black side was White or Jewish. Must be

lots of Ganja smoking going on down there in Jamaica.

This Meghan chick is not really all that attractive, too. She's some kind of big Hollywood whore who was married to a Jew for awhile. You can tell she's going to look even worse in just a few years. Maybe even Sheboon nasty with all those big meals served up by White butlers at all hours of the night.

The Royals are in for serious Jew media type ugliness. It's already started — I think hardly any of Markle's family are even going to be at the wedding. I predict the marriage will go south, soon — I give it a year or two. Sure, the part Negress whatever will get herself a nice big golden parachute out of the deal, book deal and probably even a plum US TV anchor job.

Harry's older brother married nicely — the Middletons are attractive as hell. Her younger sister is a full-on White hottie. I need to stick her photo in here just to look at the kind of Brit babe Harry could have married. Idiot.

Meghan Markle, only slightly Jiggaboo, now big hero to Jew media because of the race mixing angle.

Duchess of Windsor Kate Middleton (right) and her sister, Pippa. Serious British babes. Harry could have married a lot better, believe me. Kate already has had two beautiful White children (left). Good for her.

Now I know I don't know a lot about all this Royal stuff. I admit it. But I do know some things about the US media and it's definitely disgusting their blatant efforts to destroy the White race.

Of course you all know that by now. The lousy traitors are bound and determined to turn our race into a dumbed-down, ugly as sin, mud race. You can see them putting in butt-ugly blacks on TV everywhere these days. Even the braindead are noticing.

Look, I don't give a damn if the Darkies (I love that term — it's so delightfully racist) want to live in mud huts or tin shacks down in Africa. I just don't think my race should be bred away with these stinking half ape people, who have an average IQ of around 85 (down to about 70 or less in Africa) and go around stabbing and shooting each other every second.

Now that I think about it, the filthy Jews would have fit in much better in Kenya or Madagascar like they once considered doing themselves back in the early days of the

Zionists. No, it wasn't just Adolf Hitler who first wanted to ship them down there, like they tell you today. The Nazis were actually training and helping Jewish Germans to move to the Levant by this time. But the International money Jews wanted to fulfill Talmudic prophecy by taking over Palestine from the Ottoman empire.

Unfortunately (especially for us), practically all Jews stayed at home. No way were they going to toil in a hot dusty Kibbutz (communistic Israeli Jew farm) when they all had it so good in White lands. Let the poor, dirty Shtetl Jews from Eastern Europe and Russia move their crazy Talmudic butts to the "land of milk and honey." We'll just sell a few over-priced oil paintings to help finance the efforts and go back to drinking fine Rothschild champagnes and chowing down on Russian caviar.

Sure, I always get distracted by Jews when I write. But that's because they are the ones behind breeding our race away with the other races.

And for that, I work for the day we run these devious backstabbers right on out of our countries — including Britain.

**For laughs, I used the created face of "[Cheddar Man](#)" as Meghan Markle. Cheddar man was a bogus Jew effort to say black Africans were living in the British isles back during prehistoric times that was soon exposed as faked science in the service of multicult brainwashing.*
