Folks, this sick crap they are doing to America is going off the rails. We got all kinds of perversions now promoted everywhere. Faggotry, trannyism, pedophilia. Soon, we'll have bestiality with great danes and poodles, I'm certain. They already like seeing us sleep with monkeys.

Look, I'm just a regular guy. I like women. But I like them born women. Genetically and physically female (hell, I'm not even all that particular about looks). If I ever found out I was getting all lovey intimate with a born man who transitioned into a broad, I would plain freak out. I probably would commit violent, brutal murder right then and there. On the spot with extreme prejudice.

Does that make me a bad guy? They want you to think that way. In fact, they want you to think I'm the big sicko in the equation! Let me tell you something: They are indeed nasty faggots out there who get off on fooling straights.

Now they are brainwashing our race's children, such as those born male — getting them to dress and act like miniature sluts, while taking hormone blockers to delay the onset of puberty. Later, they might get their tallywackers wacked off and surgically reconfigured into vaginas (sounds gross because it is gross). They also sometimes get big ol' silicone tass emplaced just like a stripper. Hell, some of them you might not even know were male unless you sent away a DNA test before you kissed them. No friggin' lie.

Look at this bizarre photo I stumbled upon over on [GAB](#). Don't know where it's from (looks like some kind of a tranny training confab). Check out the freaky, demonic-looking Jew homo talking to a little kid tranny "reporter" (impossible to know if it's a boy or girl). The kid has on a wig or one of those ridiculous dye jobs — popular because it says "look at me everybody — I'm one of the cool people these days!" That's how they get kiddies to buy into the deal — to be "different" and victimized by "evil White haters" because of it. It's the whole Jew victimhood cult gone wacked!

And get this: Trannyism is a big scam. Say what, Cogster? Yep, practically all of these freaks can be cured easily with a dose or two of this one particular drug. Seems some kiddies get a little wiring crossed up in the noggin and feel kind of confused about themselves for a time (they eventually grow out of it). Can't remember exactly the medical issue — starts with a "P."

Should they sadly be born to idiot liberal parents, no telling what kind of expensive drugs they'll get injected with to really make them go all faggot.

To inhibit Goyim reproduction, NWO Jews turned it all into a big scam of "being born in the wrong body." There's only like 2-3% of the population really homo — the ugly butch lezbos and the prancing, lisping type, so popular with the cocktail party set. Add to that a few sickos who will sexually do anything on two or even four legs. Hell, they'd hop up on a tree trunk if there was a woodpecker hole they could lube up.

Lib

erals, like the two complete idiots above, are plain sick to use their own children to "virtue signal." The poor little kid will be messed up in the head for years — he may never have biological children himself. The filthy Jews love seeing the White race like this!

When I was a kid, my buddy and I found this old airbase dating back decades. I think they trained WWII pilots there. It had some rusty quonset huts where the 1940's flyboys parked their butts and stared at pictures of chicks who were really fertile. In the years since, the place had turned into an apocalyptic movie set with wild plant life and fauna taking over. I think I even saw a few escaped monkeys from the zoo, or maybe it was just black kids from somewhere nearby. Hard to tell as they ran off chattering into the bushes.

Maybe that was because we were armed. We used to "borrow" my dad's .38 caliber Smith and Wesson Police Special revolver with a 5" barrel to target practice there. I got to be quite the junior Pistolero, too. I could hit a derelict's empty Mad Dog 20-20 bottle at 30 paces, easy.

Local lawmen used the forgotten airbase as a dumping ground for old evidence and boxes of trash pulled out of broken homes where freak people went haywire and committed murder and stuff. We used to go back there and check it all out, while smoking stolen Marlboro cigarettes. If only our parents knew what stinking little miscreants we were.

You would not believe all the wacky things we found. Old timey 1950's porno magazines with very pale white broads in too small fish net stockings and permed hairdos, big droopy knockers and hairy, unshaven privates — unlike today's dames who shave it so they look like schoolgirls. Also, a lot of faggot stuff about some skinny White guy named "Nellie." Seems a lot of fags back then were named "Nellie."

I've been around since, believe me. I graduated from a university located in a major metropolis. I've seen some really sick crap in my time. Plus, I've had hipster girlfriends who were big "fag hags" so I was forced into socializing with them on occasion. It was so like Manhattan cocktail parties with witty urbane homos like Truman Capote and Andy Cohen. Riiiiight.

The Vile Jew Sickness is Upon Us

Let me just state for the record: Homos are totally nasty puppies. Don't let the Jew brainwashing fool you for a minute. They are definitely not like you or me. They are immoral, depraved, perverted, and in some cases, seriously insane. Most of your White murderers and serial killers have turned out to be homos and pedophiles. Or Jews. Which is about the same thing when you think about it.

Ever seen any photos of Gay "pride" parades? Sick in the head people marching around our city streets displaying their perversions openly. Sometimes they even engage in public sex acts in front of people. Imagine the sick crap they do in their foul dens of iniquity?

Which brings me to my next point. They actually like making faggotry a spectator sport. These sick people literally get off on flaunting their perversions in the open — especially in front of straight people. There's a certain narcissistic pride at how low they can go or how much they can shock normal people with their perversions. It's exactly like the descriptions of Sodom and Gomorrah in the Bible.

Oh, I know it's hard to understand if you're a normal person.

You remember that Iranian Ayatollah guy who said America was the Great Satan and Israel was the little Satan? Jew media acts like it was so terrible that they had the nerve to describe us "freedom lovers" that way.

But guess what? Looks like he was absolutely right!

Fat faggot doing something nasty with his junk and butt. The photo was so sick I had to go into it and cover up the really bad part with a black rectangle.

[Masha Gessen](#), a demonic-looking Jewish Lezbo who moved over here from Russia and freely brags about working to end marriage as we know it and brainwash our children to go homo. You sometimes see this ugly bitch in anti-Putin/Russia news reports and documentaries — also giving us good Americans another dose of Jew Geopolitical BS. She's a total NWO agent of hellish Jew destruction allowed free reign to spout her sick, faggoty bile across mainstream TV.

When you think giving hormones to cattle is evil, but injecting them into children in order to 'change their gender' is fine...
