

Tranny TV Star "Jazz Jennings" Getting Fake Twat!

Tranny TV Star "Jazz Jennings" Getting Fake Twat!

...surgeons agreed to forge a 'vagina' from his *stomach membrane.*"

By Michael Byron @DAILY STORMER

I almost feel sorry for Jaron Bloshinsky, the Hebraic gorgon that calls himself "Jazz Jennings."

First, a grinning rabbi removed his foreskin at birth and pawned it off to the cosmetics industry. Then, his kike parents diagnosed him with “gender identity disorder” as a child and encouraged him to “transition” into a female.

Now, 17-year-old Jaron - who has his own TV show, because Jews - intends to remove the remainder of his penis and replace it with a Sarlacc pit!

Breitbart:

*Transgender reality TV star and LGBTQ activist Jazz Jennings took to social media to gush about an upcoming penis-to-vagina gender reassignment surgery, telling fans “**this is something I’ve wanted my entire life.**”*

His grandmother, who looks like a skinwalker that strayed too far from the forest, also supported his “transition.”

FYI, Bloshinsky didn’t have “gender reassignment surgery” earlier because surgeons considered his Judenpenis too small to operate on. I’m not joking; the constant testosterone blockers he took throughout childhood retarded its growth, forcing surgeons to admit that they didn’t have enough material to work with down there.

The newspapers covering this story conveniently forgot to mention that part, presumably because it makes transsexualism look even more unnatural and insane that it already does, but Bloshinsky brings it up in his own video starting at 4:52:

Bottom line: He finally got the green light because his surgeons agreed to forge a “vagina” from his stomach membrane.

Jennings, who was born a boy but whose parents set on a path to transition starting at the incredibly young age of five, proclaimed great excitement for the coming operation in a YouTube video.

*“I’m going to have new genitalia,” Jennings said in the video. “Penis to vagina. That’s some serious s**t, y’all. I am just ... I can’t believe it. **I’m going to have a vagina.**”*

Okay, this is the part where I’m supposed to post **that** picture showing that these tranny “vaginas” are, in fact, open wounds that need to be dilated daily to prevent them from healing.

But I can’t bring myself to abuse my readers like that.

Besides, we’ve all seen it. It’s the main reason alcoholism is the last implicit stand of white identity.

So here’s a picture of a doggo walking his puppers instead:

Enjoy it while it lasts. We're about to re-enter Jewland in 3... 2... 1...

But Jennings did find one thing to miss about having a penis.

*“The one sad thing is — peeing stand up is so cool,” the 17-year-old said. “I don’t think I’ve appreciated it enough to be able pee standing up ... Honestly when you wake up in the morning and you’re lazy as hell and you’re tired, it’s the most convenient thing to do. I keep the toilet seat up ... right **when I go in I don’t have to touch all that slimy juice underneath the toilet seat. I just do it and sometimes I don’t even have to wash my hands if I don’t like touch anything.**”*

You sickening tapir!

There wouldn't be “slimy juice” underneath the toilet seat if you kept it clean. Just like there wouldn't be hygiene issues with foreskins if your fellow tribesmen kept them clean, too.

These kikes are so filthy.

Whenever I see a cockroach, I always tell him to clean up after himself or else he'll attract Jews.

“This is something I’ve wanted my entire life,” Jennings added saying that this was a goal set at the age of three.

“Overall, I feel like the results are gonna be good. Hopefully, it’ll turn out well,” the TV personality concluded.

The odds of the operation being a success are good, yes.

The odds of you still being alive after 30?

Table 12: Lifetime suicide attempts by gender identity and mental health disability

Gender Identity	Have Attempted Suicide	
	MH Disability	No MH Disability
Trans Women / MTF	360 (67%)	891 (37%)
Trans Men / FTM	263 (67%)	559 (40%)
Cross-dresser (male-assigned)	39 (54%)	108 (17%)
Cross-dresser (female-assigned)	27 (56%)	57 (40%)
GNC / Genderqueer (male-assigned)	18 (62%)	43 (33%)
GNC / Genderqueer (female-assigned)	82 (59%)	130 (29%)

good.

Not

I really do believe that Jaron Bloschinsky is going to end up killing himself. It just seems logical, given that he had no choice in the matter and is about to embark upon an irreversible operation that could, even if successful, leave him in constant pain for the rest of his life.

And I hope he does commit suicide. Young white teens love his show, so learning that their beloved idol kicked the bucket after realizing he’d chased a false dream will go a long way toward breaking the spell.

APPROVES of this kind of **Globalist Jewry** genitalia engineering!
