Oh boy, do I remember that little punk at Charlottesville offering to fight. I had just turned around to go back to my car after realizing my pro-White brothers and sisters had already departed. I was several blocks away from the final lefty assaults, walking down the middle of the street with a half furred Confederate flag. A squat fat White dyke had just spat on me. I paid the bitch no heed. But when a grown-up Beavis and Butthead lefty asked to fight in a barely audible squeaky voice, I stopped and faced him squarely.

OK, let's go punk. He motioned for me to follow him over to an alley, where I could see some of his lefty ilk slouching about. Yeah, right. I told him: No, right here, if you got the guts, punk. I knew I could have easily cleaned his clock. I might not have handled a half dozen of his pals jumping me at once, but I was damned sure I was going to put a hurting on his ass before I went down with the count.

Oh, I've seen his type before. Trust me. This is the sort who make up the majority of ANTIFA. A scrawny, dirty little punk, quite probably a big meth head. The last time I got in a real fistfight was with a recovering alcoholic meth head and Hillary Clinton lover, who

actually accused me of stealing his last Taco Bell burrito, if you can believe that. There's some real idiot efwads out there.

I remember years ago in college (yep, I'm an educated "hater") when my wacky roommate and long time friend "G" — a big guy of Scottish ancestry who looked a bit like Sean Connery — wanted to go to this art show opening because they were serving free orange juice and vodka (screwdrivers) from a bottomless punch bowl. Plenty of funky art chicks would also be in attendance. I brought along my camera for whatever crazy things might happen. With free booze and Big G around, there was no telling.

Afterwards, we roamed the city taking grainy B&W flash shots of the street scene (we both were somewhat arty types, too). As we rounded the corner on a main avenue we found ourselves in front of this suspicious little "hotdog restaurant" where a motley crew of scumbags — White, toilet crap brown and black — were sitting out front on parked cars. Lordy, what a stinking, ugly bunch of criminal creeps — talk about diversity!

Something big was going down: You could cut the tension with a knife. The scum were out in force waiting for whatever to happen. Halfway down the block we hear BLAM, BLAM, BLAM. I turned to see two lanky Negro figures run across all lanes of the main drag — certainly the shooters.

I ran back with my camera to find this black guy, wearing shorts, wife-beater tee shirt and flip-flops splayed out on the sidewalk right under a street light. He wasn't moving. You could see the fresh bullet entrance wounds.

Before cops could arrive, this White scumbag in a Levi jean jacket with the sleeves torn off, wearing one of those ambulance chasing lawyer-issued neck braces, started screaming in my face for taking photos. As I recall, he had spiky punk rock hair. A druggie Sid Vicious wannabee, to be sure. The guy must have been tripping his brains out. Come to find out, the "hotdog restaurant" was cover to a big drug operation and the victim was hit because he was dealing on someone's turf, as cops later told me. They also didn't care one bit about looking at my photos for possible perps. That's life in the big city.

The reason I tell this story was because of that one crazy White druggie in a neck brace screaming at me. Every time I see one of these lefty ANTIFA scumbag types, I'm reminded of that night back in college.

F*CK OFF, FAGGOTS!

Let me just state where I'm coming from: I'm pro-White, pro-American, pro-Straight heterosexual. I'm also anti-Abortion, anti-Faggot and anti-SJWs. I believe the left would call me "CIS-GENDER." I don't exactly know what CIS means, since I don't bother wasting my brain cells trying to keep up with the latest made-up names out of the modern day commie Jew Frankfurt School. These hypocrites are supposedly non-judgemental, yet seem to have all kinds of terms for people they hate, don't they?

If these faggoty types want a war, I say bring it. I know plenty of guys (and some gals) just like me itching to use all their favorite not-so-shiny toys, if you get my drift. We've been gearing up and "dialing in our zero" for years.

Let's get real: These lefty psychos are definitely anti-Whites. They openly support the immigration of Third Worlders into our lands and applaud "demographic change," which is code for White genocide once you get down to it. As such, they are enemies of my race. They are pro-Marxist, hence enemies of America and the Constitution. If all that's not bad enough, most of them are also subversive Jews, sodomites and drug addicts.

These are weak-minded, spineless individuals. Deal with them mano y mano and you will readily see how cowardly they are. If the current media-controlled PC narrative was shut down, or a real Civil War broke out, these punks would reinvent themselves overnight. Practically all would disappear into the proletariat masses to wait out the results. They are "non-starters" in every sense of the term. Let us not worry unduly about them when the time comes.

Now these cowards have decided to confront members of the Trump administration in public restaurants so they can videotape themselves harassing conservatives. The newly promoted phony issue about "poor little kiddies in Nazi/ICE concentration camps" gives them the excuse. Stupidly, leftys can't seem to remember their peep of color hero, Obongo's ICE had to do the exact same thing when it came to these ILLEGAL ALIENS. It was the law of the land — still is. In fact, ANY criminal who goes to jail is separated from his kids. Plus, these ICE holding centers are well-fed paradises compared to the total shitholes they come from.

It's so so obvious Jewish mass media is now in the process of brainwashing and ginning up leftys for Midterm elections this fall.

Now the wackos have the retirement of Justice Anthony Kennedy from SCOTUS to get their knickers in a bunch. They are so scared of abortion getting outlawed they

Militant black wacko, Maxine Waters, openly called for harassing Trump people wherever leftys find them in public. This ugly black bitch needs para-deporting back to Africa!

already have decided not to confirm anyone Trump may name as his replacement. If they supposedly cared so much about kiddies all the time, then why do they go haywire about us wanting to put a stop to the horrible murder of the unborn — who can indeed feel being killed? I don't even want to think about it.

These leftist punks literally want no borders whatsoever — abolishing ICE entirely. Yet they expect us taxpaying Whites to happily pay the freight of supporting these invading hordes of Third Worlder scum. Hell, they've already long been making our race pay welfare, EBT cards, food stamps, Section 8 rent vouchers, free cellphones to the worthless criminal black race — while acting like we should always worship them as oh-so-great. On top of that, they still feel free to insult us White people every minute of every damn day. Can you believe the total BS out of these wackos?

Let me just say I can't wait for the day we put such idiot lefty hypocrites into serious as hell labor and reeducation camps. They want Nazis, well, by golly let's give it them!

Had enough yet, White people?
