I remember one time I was talking to my brother about some of this, when my sister-in-law came out onto the deck and asked him to go get a bag of friggin' dog food out from the barn, completely interrupting our conversation. I sort of chuckled painfully to myself on how typical some inane stupidity would take precedence over such an important topic.

It's really one of the biggest questions of the last century, IMHO. Mind you, it's not just about a long-dead Russian Commie dictator, but the now absolute certainty of an on-going "Agenda" to create an authoritarian One World Government with America nothing more than a mere puppet cog. Bear with me — no Russia pun intended.

This thing has its roots way back in the Red Bolshevik revolution of 1917, or even before, actually. After Marxist Godfather Vladimir Lenin (at least partly Jew), took ill possibly due to syphilis, and suffered a series of strokes before dying in 1924, Stalin maneuvered himself in control of the mostly all Jewish Politburo through fear of getting a knock on the door in the middle of the night. Stalin had the murderous CHEKA/GPU police state apparatchiks at his fingertips. The other power base was Leon Trotsky (real Jew name: Lev Bronstein) that

Stalin soon forced into exile.

Oh boy, did this piss off the crazy Jew Commies in the West! For the sake of the “dictatorship of the proletariat” and the “COMINTERN” (Communist International organization dedicated to overthrowing the Capitalist West), they were tearfully forced into declaring solidarity with either Stalin or Trotsky — who eventually made it to Mexico City — living high on the hog with a crew of fellow crap-stirring Commies, I might add.

Trotsky (right) himself was a murderous Jew commie bastard. His Red forces killed tens of thousands in mass executions and Coup de Grace shots in the back of the head in bloody police state dungeons. Millions more died horribly during years of warfare, exposure and forced starvation of entire regions as the Commies roved across the countryside, killing and burning down whole villages of poor rural folk.

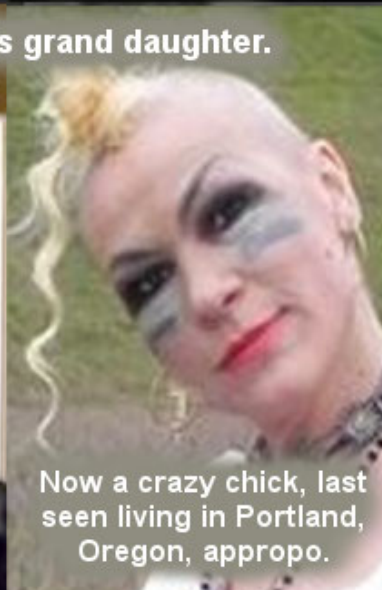

If they suspected you of harboring any kind of loyalty to the Christian Monarchy, or enjoyed the fruits of Capitalism by simply owning a piddly little business, they might shoot you and your dog dead on the spot.

In 1940, Ramón Mercader, a NKVD agent of Stalin, buried an ice axe into Trotsky’s noggin as he was sitting at his Mexico City desk, undoubtedly churning out more Commie claptrap for distribution in the good old US of A. Twenty years later, when Mexico released the assassin from prison, Cuba’s new crypto-Jew dictator, Fidel Castro, took him in.

But was Stalin a Jew? This was the big question back during those times. He certainly looked Jewy. But alas, no concrete evidence has yet to be uncovered proving he was. Doesn’t really matter, once you get down to brass tacks. The power mad bastard rode the wave of Commie and Wall Street Jew-instigated revolution — making millions of poor innocent Russian Goyim suffer and die over the next few decades.

And most of Stalin's police state henchmen carrying out his orders were indeed Jewish. In fact, Jew Commies of the last century were some of the most murderous bastards you could possibly imagine. They obviously don't want us good Americans to know that.

Some say Stalin was Jewish on his daddy's side. His dirt poor mother was reputed to be a hot looking number for the time (average girls of today would have looked damned good back then) and was said to have had affairs with rich Jews she worked for as a house maid. Some say she was employed at this one swanky hotel as a chambermaid when a big time Jew banker member of the Rothschild financial octopus knocked her up during visits to push more loan debt on the Czar. Her alcoholic hubby was said to call young Stalin "her little bastard" while beating them both up — implying he was not his own spawn.

I think it

has been proven that Stalin as a young criminal thug did work for the Rothschild’s massive oil industry in Baku, Azerbaijan, as a strike organizer with competing oil companies, strike breaker of the Rothschild concerns, arsonist and general all-around crime boy on-call. Whether this relationship continued into the future is unknown.

Documents supposedly uncovered later on said Stalin pulled “a Bonaparte” on the International Jewish power nexus when he kicked out Trotsky, meaning the Jews secretly financed him like they once did for France’s Napoleon Bonaparte until he screwed them over. Stalin did “liquidate” (execute) the last of the “MENSHEVIKS” (Trotsky’s Commie Jew loyalists) during the “Great Patriotic War” with the evil Hitlerites.

With good reason, some say it was all really a big Jewish internal war — with us non-Jewish Gentiles dying in mass heaps as “collateral damage.” Jew or not, Stalin certainly co-opted the whole Commie Russia thing to get his power groove on.

Stalin did like his Jew babes, that’s for sure. According to long-time Georgian bud and police state honcho, the sadistic Lavrentiy Beria, he had many affairs with Jew women. His first wife was the daughter of a family who took him in while hiding out from the Czar’s secret police. The mother believed in “free love” (big lefty thing at the time) and Stalin tagged her, presumably when daddy-kins was out slaving in the salt mines. When criminal opportunist Stalin became a high ranking member in the Marxist party, he hired her 16 year-old daughter as his “personal secretary;” having to marry when she was “with child.” She died of Typhus a year later, supposedly breaking Stalin’s black little heart and somehow excusing his later murdering of millions.

N's Fareed Zakria, is one of the biggest NWO Globalist brainwashers on TV. Here America took in his Paki Street Shitter family, and now he's quite happy getting himself filthy rich by pushing to turn our lands in Turd World piss pots. Look at Hillary. Total traitors.

Anyway, the story is that a long-running Globalist organization called the “Council of Foreign Relations” (CFR) has been plotting all this since the days of Stalin or even before, actually. They did in fact come into the picture around the same time as Stalin and pushed the West into having good relations with him, even though everyone knew he was a murderous dictator. FDR's frumpy lefty wife Eleanor (probably a lezbo) even went to Moscow to have tea and crumpets with Uncle Joe.

The Jew-owned New York Times lied their asses off about Stalin for decades, even before WWII — just like they do about so much today when it comes to lefty, commie BS.

Patriotic Congressional investigators in the 1950's reported these Globalist forces were working to create a world government under something called “Oligarchial Collectivism” or what you probably would call Communism. But instead of jacking up the Worker class with lame old Marxist sloganeering, it now seems they decided to first politically castrate and

demographically winnow down the dangerous (to their agenda) White race, by using division and immorality to gain power and keep us distracted.

The whole "PC" silencing of Whites appears to have been part of a diabolical master plan, installed in our populations as a taboo control mechanism in a multi-generational "PSYOPS" program against Whites, to set the stage for eventual Jewish control. Add to this the mass immigration of non-White Turd Worlders into our White countries, ever-increasing black worship and the promotion of race mixing we see everywhere these days.

I call it "just in time" racial engineering to turn us into a dumbed-down slave class — perfect for the stuck-up, sexually depraved Jew bosses of tomorrow land.

Most of your Deep State politicians, big government functionaries and big media honchos on both coasts are proud members of the CFR. They have an Immigration and Globalism-touting magazine you can even pick up at the homosexual Jew-owned Costco Warehouse called, "The Economist." Germany's Angela Merkel and Hillary Clinton have had their portraits lovingly printed on the cover as big time heroes for helping destroy White countries.

Council of Foreign Relations's president, Richard Haas (right), is trotted out a lot on mainstream FAKE NEWS to give a America "the spin." He's a Jew, too. Here he's laughing with CNN Jew, Jake Tapper, about the evil Steve Bannon saying our country has a culture worth something. These are all devious backstabbing rats. Truly.

Russia's current boss, Vladimir Putin, is said to have deep ties with Chabadist Jewry. The

Chabad-Lubavitchers are a big international Jew organization who have been exposed many times as working towards the day Jewry controls the planet. Trump’s son-in-law, Jared Kushner and daughter Ivanka, are members of a DC Chabadist “shul” or synagogue. Members of this Jew Supremacist outfit are all over the place — for example Ari Fleischer, the clean-shaven Bush media spokesman who you see on FOX news all the time is a Chabadist rabbi.

The Chabadists also erect a 70’ high menorah on the park in front of the White House every Christmas season. No one seems brave enough to say a word. They also have multi-million dollar headquarters in 70 countries — including Russia. The number 70 is big time Ju-Jew for these Cabalist creeps.

Now the question of Trump being in cahoots with all this must be asked. You already know me as a kind of Trump guy, but that’s strictly because I’m an evil Right Winger type — Mom, Guns and Apple Pie. I certainly can’t stomach Trump’s Israel/Jew-loving one bit. That’s where him and I part ways, as they say.

What scares me most is that I may be working for the Jew’s big Agenda and not even know it. Say what, Cog Man? Yep, me being for Trump might have been a bad thing. I get accused of being a big secret shill all the time from anti-Trumpers of the Alt-Right, especially the ones who know of all this Stalin business.

There are some possible moves in the big Game Plan that I cannot even broach for fear of getting visited by the men in black, if you get my drift. Trump may be the magnet to corral the people in America the lousy Jews want to corral. If something were to happen to Trump and a Civil War breaks out over it, the forces will be demarcated enough for the Jews to go on another mass Goyim killing spree — this time using high tech gadgetry already created for the “War on Terror.” Jews have always so loved “two-fers.”

The pieces of the puzzle are fast coming into place. You can feel things snowballing by the minute. We may be on the highway to put another Stalin-like monster in power — only this time he’s the real anti-Christ or the Jew’s long-awaited “MOSSIACH” (Messiah) to take the place of Jesus Christ — who Satanic Jews still hate like crazy. Scary times, my friends.

The only thing I can say is pay close attention, pray and keep you powder dry!
