You have to understand something here: The lefty, Marxist Jews behind the media and the Globalist NWO cannot stand to see two White men getting together on anything — except to do their bidding. Because of important personal business, I was indisposed during most of this and could only hear a few brief things in the media. But it was obvious they went haywire over Trump getting too buddy-buddy with Putin.

First, they can't stand Trump one bit. They think he's a budding Fascist. And they already act like Putin is so evil because the NWO Jews want to steal the Ukraine. Notice how they don't mention the part anymore where the people in Crimea voted overwhelmingly to stay with Russia, and now just let the idiot general public think Putin invaded. The Crimea is mostly a big Russian Naval complex, much like San Diego. What would we do if leftists in San Fransicko got California to secede from the USA?

Let's remember one HUGE pertinent fact: The DNC server was never examined forensically. The Democrats refused to turn it over to the FBI. In fact, no one seems to know where it even is now. NO INTEL agency can say for sure exactly who hacked it. No digital fingerprints have been analyzed. Could be those damn Rooskies, could be a big fat guy living in his mother's basement, just like Trump said.

And the so-called “Guccifer 2.0”? They don’t know if he was an agent in the Russian GRU. They are merely telling us that. One minute he’s a Romanian and the next they tell us he’s Russian. Some say he was working for a candidate in Florida running against former DNC chair and Jew creep, Debbie Wasserman-Schultz. Maybe so. Actually, there’s tons of hacker types on the dark web who do crap like this for sheer giggles. Literally.

And how about John Podesta’s email? Supposedly, his password was so lame anyone could have done it. Hillary’s bathroom server is thought to have been hacked by all kinds of governments like China. I’m positive Israel did, too.

And oh, BTW, Podesta really might be a big pedophile, too.

The whole business with Trump colluding with the Russians is so stupid, they must think we’re going insane over here. The leftys in the media and the DC Deep State are hell-bent on bringing Trump down — just like they are working to turn America and all White countries into Third World piss-pots.

Add to all this, the Zionist agenda of hegemony in the Mideast. They cannot have Syria’s Assad in power and Iran helping him out. They want to turn Syria into a nest of warring Muslim wackos that can’t threaten sacred Israel. Looks like they did it.

Besides, Hillary, Billy Bob and John Podesta were dealing with Russia left and right. They made millions with Russia and various Oligarch types. Never a word is breathed by the lefty media rats on anything these creeps ever did. It’s crazy the sheer hypocrisy going on.

I’ve done some hacking before. Certain periods in computer history were easy for hacking. Even someone like me was able to do things. Anyone who knows about all of this thinks it’s a giant joke.

The lefty NWO Globalist media is surely jerking America’s chains now every minute to push their anti-Trump agenda. These are the exact same creeps jacking up the homies, pushing for immigration of non-Whites into our lands and faggotry.

We need to shut their fat faces. BIG TIME.

State Department assistant of Hillary, NWO Jew Victoria Nuland (Nudleman), passes out food to anti-Russian protestors in the Ukraine. Imagine a Russian government official doing this during the riots in Ferguson, Missouri?
